

Oba-Adeleke Ohunoluwa Elias

Lagos, Nigeria | 0906 326 2851 | obaadeola39@gmail.com | github.com/Ohunoluwa | <https://ohunoluwa.github.io/My-Portfolio> | LinkedIn: Ohunoluwa Oba

PROFESSIONAL SUMMARY

Data Analyst with strong expertise in data analytics, predictive modeling, and business intelligence. Skilled in Python, SQL, Excel, and Tableau for transforming complex datasets into actionable insights. Experienced in building analytical models, developing interactive dashboards, and solving business problems across e-commerce, climate-tech, customer analytics, and public health domains. Combines strong technical problem-solving with proven leadership experience.

CORE COMPETENCIES & TECHNICAL SKILLS

Programming & Databases: Python (Pandas, NumPy, Matplotlib, Scikit-learn), SQL

Data Visualization & BI Tools: Tableau, Dashboard Development, Data Storytelling, UI/UX Design

Analytics & Modeling: Predictive Analytics, Time-Series Forecasting (Prophet), SPI Calculations, Churn Analysis, Disease Modeling, E-Commerce Analytics

Web & Technical Tools: HTML/CSS, JavaScript, Git, GitHub

Soft Skills: Leadership, Public Speaking, Strategic Communication

EDUCATION

Federal University of Technology Akure (FUTA) — Akure, Nigeria

B.Sc. Statistics | Expected Graduation: 2028

Relevant Coursework: Advanced Mathematics, Statistical Theory, Mathematical Modeling

KEY PROJECTS

E-Commerce Logistics & Sales Analytics [June 2026] – [July 2026]

- Using a synthetic dataset I engineered an end-to-end data pipeline using SQL to clean, transform, and analyze raw e-commerce datasets, mapping \$4.25B in revenue and a year-over-year growth rate.
- Applied a Medallion Architecture to resolve data anomalies and inconsistencies, building an optimized One Big Table (OBT) that helped identify a 2.43% reduction in product return rates.
- Designed an interactive Tableau executive dashboard with cohort-based trend analysis to visualize supply chain efficiency, highlighting a highly optimized average delivery time of 6.49 days..

Maize Watch 1.0 | Climate-Tech & AgriTech Analytics [May 2026] – [July 2026]

- Developed a predictive analytics system using **Open-Meteo Historical Weather API** for rainfall forecasting and drought monitoring to support food security in Northern Nigeria.
- Built forecasting models using Prophet and calculated Standardized Precipitation Index (SPI) metrics for drought intelligence.
- Authored technical documentation and system architecture for deployment planning.
- Analyzed historical climate records across 5 high-yield agricultural states (Kano, Kaduna, Katsina, Jigawa, Sokoto) using Python and SQL to establish localized moisture baselines.
- Engineered a 14-day predictive forecasting model using Prophet.
- Designed an automated operational logic engine to translate complex meteorological data into actionable farming signals (PLANT, CAUTION, WAIT).

Revenue Rescue | Customer & Business Analytics [June 2026] – [July 2026]

- Built a predictive customer churn pipeline using Scikit-learn and SQL to identify behavioral patterns and revenue risk indicators using **Kaggle API** to extract raw transaction records.
- Wrote advanced SQL queries and created database views for churn analysis and reporting.

- Developed Tableau dashboards that improved visibility into customer retention metrics and business performance.
- Achieved 94.24% churn prediction accuracy on a 46.22% overall churn rate, segmenting 100,000 user records to drive targeted win-back campaigns.

CIDMA Public Health Analytics | Disease Modeling [February 2026] – [March 2026]

- Developed analytical models to monitor infectious disease trends and support public health intelligence.
- Designed dashboards for effective communication of urgent health and operational metrics.

Portfolio Website [July 2026]

- Designed and developed a personal portfolio website using HTML, CSS, and JavaScript.
- Showcased technical projects, dashboards, and data storytelling through modern UI/UX design principles.

LEADERSHIP & COMMUNITY INVOLVEMENT

National Teens Vice President (Lagos) & Regional Teens President | Redeemed Christian Church of God | 2023 – 2025

- Planned a statewide prayer walk and evangelism initiative, and provided strategic direction for teen and youth programs.
- Mentored and oversaw a cohort of teenagers over a two-year tenure.
- Planned, organized, and executed teen programs and outreaches at both regional and state levels.
